

TG **Lesson 1 day 6**
Grade 3: Questions about Magnets

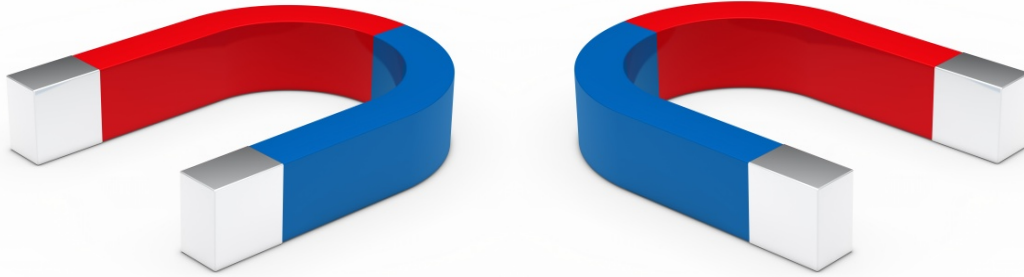

photo created by d3images - www.freepik.com

Billy has 2 magnets. They are the same shape, size and weight. He's wondering if one of them is stronger than the other.

What questions could Billy ask to help figure out if one of them is stronger? Write at least two questions that could be answered with investigations.

1. _____

2. _____
