

ENGINEERING MAKES IT WORK!

Talcott Mountain Science Center and Connecticut Invention Convention

team up to bring you hands-on workshops
on how to mentor your Invention students

When: Saturday, October 25, 2014, 9:00 - 3:00
Where: Talcott Mountain Science Center
324 Montevideo Rd., Avon, CT
Who: K-8 Teachers and Informal Science Educators
What: Introductory workshop, teachers do not need any
previous skill or knowledge.

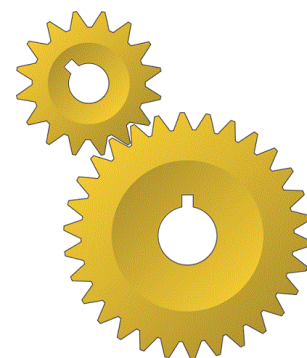

Part I- You will be able to:

- Address Next Generation Science Standards
- Apply basic engineering process through student inventions
- Develop basic skills in electronics and material science

Part II: 3D Design:-You will be able to:

- Use free software to design an invention
- Use a 3D Printer
- Print an object to take home!

All you need is curiosity and a desire to learn! Workshop content is linked to the Next Generation Science Standards.

Cost: \$55 includes both workshops and lunch
(\$5 discount for registered CIC teachers)
